Description: Introducing an Energy Efficient line up of John Wood® Pro Power Direct Vent Water Heaters

We are proud to introduce our new industry leading 40/40 and 50/40 Power Direct Vent Models.

These new models will accompany the current 50/65 PDV with some added features and benefits:

- Industry leading efficiency levels in popular 40 & 50 gallon sizes
- The new Intelli-Vent™ control provides precise and accurate temperature control
- Direct vent technology that enhances indoor air quality
- Our robust “shaped duct” design allows for a reduced footprint
- The convenient location of the T&P and drain valve allows for ease of serviceability
- The family of products provides a solution for both residential new home construction and replacement water heating applications.

The John Wood® Branded PDV 40/40 and 50/40 are now available. This fall our PDV product line will be augmented with a new 75/75 PDV model. Please contact our customer service group at 1-888-599-2837 for availability.
